EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Helen Lockhart on 12/20/04.

The application has been amended as follows:

In claim 19, line 1 after the word "injury" the phrase – by an arthroscopic procedure – has been added.

Also in claim 19, line 2 after the word "tissue" the phrase – having an intra-synovial environment --- has been added.

Additionally in claim 19, line 4 after "extracellular" the word –matrix --has been added.

Allowable Subject Matter

Claims 19-21,40-42 are allowed.

The following is an examiner's statement of reasons for allowance: The method of repairing an intra-articular injury in a subject by contacting ruptured tissue ends in an intra-synovial environment with a composition having collagen I, an ECM protein, a neutralizing agent and a platelet was found to be novel. The prior art tissue compositions containing collagen were used to repair ruptured tissue, but failed to place the claimed composition within an intra-synovial environment of an intra-articular injury.
